

Disaster Restoration Applications

The logo for ODOROX is an oval with a metallic, brushed metal finish. Inside the oval, the word "ODOROX" is written in a bold, gold-colored, serif font with a slight shadow effect.

ODOROX

A photograph of a two-story house with blue horizontal siding that is severely damaged by fire. Thick black smoke billows from the roof and windows. Bright orange and red flames are visible through the windows and along the side of the building. The sky is overcast and grey.

RESTORING THE BALANCE™

The most advanced system for eliminating odors,
decontaminating surfaces and purifying the air.

**Eliminates odors from
fire, smoke, sewage, water
damage, VOCs,**

**chemical fumes, biohazard,
skunk and any other
unpleasant odor.**

Fire and Smoke Restoration

Water Damage Restoration

Biohazard

Mold Remediation

Green Technology at Work®

Hydroxyls are:

- Can be used in occupied spaces to eliminate odors and pathogens
- Safe for people, animals, plants, rubber, plastic, vinyl, electronics, sensitive materials and wet items
- More effective than ozone, chemicals, filters, foggers, scrubbers and masking agents

Hydroxyls are the most effective method for:

- Eradicating unpleasant odors, volatile organic compounds (VOCs), chemical fumes and gases
- Killing bacteria, viruses and mold

Applications

- Fire and Smoke Restoration (protein, soot, grease, plastic and natural)
- Water Damage Restoration (sewage backup and flood)
- Odor Removal (dead animals, chemical fumes and skunk)
- Trauma Scene and Biohazard (odor abatement, bacteria and virus eradication)
- Mold Remediation (kills mold and eliminates odor)
- Contents and Textiles (soft furniture, clothing and draperies)
- Area Rugs, Carpet and Upholstery

Advantages

The ODOROX® hydroxyl generators allow disaster restoration companies to complete their jobs faster and more effectively. This leads to happier clients, a lower claim for the insurance company, and an increase in profits for the restoration company.

- Eliminate odors while maintaining occupancy
 - Reduce additional living expenses (ALE)
 - Reduce business interruption
- Restore more items to pre-loss condition
- Complete jobs faster by eliminating odors from the air, structure and contents during physical cleaning
- Deodorize throughout the drying process
- Uses no chemicals and leaves no residue
- Portable and lightweight
- Operates using less than 2 amps
- Lowers the amount insurance companies have to pay while simultaneously increasing your profits and creating new streams of revenue

We manufacture what the sun produces naturally

Hydroxyls (HO•) are naturally occurring molecules that are created in our atmosphere when the sun's ultraviolet rays react with water vapor.

ODOROX® hydroxyl generators replicate this natural process indoors, thus Restoring the Balance™.

For Disaster Restoration use:

- ODOROX® Boss™ Unit
- ODOROX® Boss XL3™ Unit
- ODOROX® Decon Scrubber™ Unit

“ This is the most effective and profitable deodorization tool on the market. We've used ODOROX® systems on many different types of jobs and it works every time. The best part is being able to occupy the structure while it's running. We now teach ODOROX® at our training facility. ”

Jeff Dornberg
Owner, Winners' Circle Training Center

“ We have utilized the ODOROX® machines for almost a year and we are amazed to learn how many different odor problems this machine tackles successfully. ”

Paul Long
Cleaning Division Manager, CATCO, Inc.
