

Hospitality Applications

ODOROX[®]

RESTORING THE BALANCE[™]

The most advanced system for eliminating odors,
decontaminating surfaces and purifying the air.

Permanently installed or portable sized units available to treat areas of any size.

Eliminate offensive odors caused by bacteria, viruses, mold and VOCs.

Bars and Clubs

Cruise Ships

Restaurants

Hotels and Resorts

Green Technology at Work®

Hydroxyls:

- Can be used in occupied spaces to eliminate odors and pathogens
- Are safe for people, animals, plants, and sensitive materials such as rubber, plastic, leather, and electronics
- Are more effective than filters, chemicals, masking agents and ozone

Hydroxyls are the ideal solution for:

- Eradicating unpleasant odors, volatile organic compounds (VOCs), chemical fumes and gases
- Killing bacteria, viruses and mold

“ Much to my amazement the room that was treated with using nothing but the [Boss XL3™ unit] and its' hydroxyl technology had absolutely no trace of smoke smell whatsoever in less than 24 hours! Even the drapes, carpet and bed linens were all devoid of any trace of smoke odor. [The Boss XL3™ unit] was like a miracle! In my 20 plus years in Hotel operations I can say I have not come across anything quite like this. ”

Debbie Speziale

General Manager, Baymont Inn & Suites

Applications

ODOROX® hydroxyl generators can be used in a variety of areas to eliminate any type of odor or pathogen.

- Hotels and Resorts
- Restaurants
- Bars and Clubs
- Cruise Ships
- Timeshares

ODOROX® hydroxyl generators eliminate odors caused by:

- Cigarette and Cigar Smoke
- Chlorine
- Mold and Mildew
- Cooking
- Pets
- Chemical Fumes
- New Paint
- Fire
- Water Damage
- And many more

Advantages

Due to the effectiveness of ODOROX® hydroxyl generators, the hospitality industry is achieving unprecedented competitive advantages.

- ODOROX® hydroxyl generators provide an ongoing solution to combat poor indoor air quality due to bacteria, viruses, mold, VOCs and offensive odors
- Eliminates odors without the need to vacate the space
- Uses no chemicals and leaves no residue
- Low operating and maintenance cost
- ODOROX® hydroxyl generators provide a customizable solution
 - Can be permanently installed into areas with continuous odor issues
 - Portable, lightweight units available for use in a variety of areas

“ The job your Odorox® machines have done removing odor on our smoking floor/hallways, guest rooms, ballrooms and common areas has made me one of your strongest supporters. ”

Lilly Sirkin

Head of Housekeeping Services, Parsippany Hilton

We manufacture what the sun produces naturally

Hydroxyls (HO•) are naturally occurring molecules that are created in our atmosphere when the sun's ultraviolet rays react with water vapor.

ODOROX® hydroxyl generators replicate this natural process indoors, thus Restoring the Balance™.

For Hospitality use:

- ODOROX® Boss XL3™ Unit
- ODOROX® Boss™ Unit
- ODOROX® IDU™ Unit
- ODOROX® MDU™ Unit
- ODOROX® Slimline™ Unit
- ODOROX® SanX™ Unit

ODOROX® Slimline™ Unit

Equipment also available for permanent installation to accommodate any size area.
